

TechSmith Camtasia Studio 9.0.4 Build 1948 Serial This product was supposed to be released on 23 September, 2018 but an issue with the software was discovered and it could not be released in time for that date. It was instead officially released on 26 September, 2018 after numerous delays. TechSmith Camtasia Studio is a software that lets you create videos of what you are doing in stead of just taking photographs for better quality because it has many functions like adding transitions to your video, editing subtitles and adding color effects, the user can also alter audio filters which makes it easier when recording audio or when editing videos. Features Include: Windows 7, 8, 8.1, 10 (64-bit only) Intel® Core™ 2 Duo 2.0 GHz or faster processor 8 GB RAM or higher recommended
